Period for		-pp								
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-6 and 8 are rejected under 35 U.S.C. 102(b) as being <u>clearly</u> anticipated by US/5,701,118 to Hall et al., (Hall).

Hall disclosed (Fig. 2, 5, and 6) a precisely identical structure as recited in the claims including a LED (28) connected in parallel and an indication lamp (42) connected in series with a fuse wire (10). The remaining claimed elements also can be clearly seen on the figures.

3. Alternatively, claims 1-7 are rejected under 35 U.S.C. 102(b) as being <u>clearly</u> anticipated by US/4,499,447 to Greenberg (Fig. 14 and 11 depict all of the claimed elements).

Claim Rejections - 35 USC § 103

- 4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person

having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

5. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hall ('118) in view of Greenberg ('447).

Hall disclosed all, but a resistor connected with the LED.

Greenberg disclosed (Fig. 11) a resistor (27a) to provide a protection for the LED (column 4, line 29).

It would have been obvious to a person of ordinary skill in the fuse art at the time the invention was made to provide a resistor for the LED of Hall for protection purposes as taught by Greenberg.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.

US/6448897, 598138, 6542061, 4281322, 5002505, and 2003/0001715 disclosed indicating arrangements for electrical fuses.

Please note, that US/6448897, 598138, and 6542061 could have been also used for rejection under 35 USC 102 of at least claims 1-6.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anatoly Vortman whose telephone number is 571-272-2047. The examiner can normally be reached on Monday-Friday, between 10:00 am and 6:30 pm..

Art Unit: 2835

1

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Darren Schuberg can be reached on 571-272-2800, ext 35. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
